Objective

To utilize my technical and soft skills to provide a professional service for your organization

Education

- **Cross River University Of Technology** 2013-2018
B.Eng/ Civil Engineering
- **National Youth Service Corps (NYSC)** November, 2020
Certification
- **Google Digital Skills for Africa** July, 2020
Certification
- **Jobberman Soft-Skills Training** June, 2021
Certification

Experience

- **Unclebigbay and Friends (Developer's Community)** February, 2018 - Current
Member
Written blogs on Hashnode, Medium and Dev.to to help improve developers knowledge as well as contributed to open source projects.
- **SideHustle Internship 3.0** July, 2021 - Current
Intern
For the first four weeks, I organized regular training and teaching the newbies (my fellow interns) how to code. The average performance of the individual participants was boosted by 80% before the end of the four-week program. Hence, I received a lot of compliments from the participants. I took the second position on the SideHustle Leaderboard while waiting for the upcoming bootcamp.
- **Jobberman** July - 2021
Jobberman Soft-Skills Training
At the end of the Jobberman training, my knowledge on software skills has really improved; and now, I understand how to work with team members effectively while using the Six Thinking Hats Model.
- **Google Digital Skills for Africa** July - 2020
Intern
I learned about Search Engine Optimization (SEO) and Google Analytics and how to use it to boost website performance when a user search with specific keywords.
- **National Youth Service Corps** November - 2020
Corp Member
During the NYSC program, I contributed to community development in Ebonyi State, Nigeria, through teaching of academic subjects like Mathematics and Physics. The students performance improved by 70%.
